

# Manage Monitored Services

## Add SQL BI Service Instances for monitoring

Use the **ADD BI SERVICE** option to add SQL BI Service Instances for monitoring. For additional information, refer to [Adding Business Intelligence Services for monitoring](#).

## Manage Monitored Services

Use the **MANAGE MONITORED SERVICES** option to have a general overview of all monitored BI instances. This view displays information such as the **Component Type**, its **Status**, the **Service** and **Host Name**, the **Authentication User Name**, the **Alert Refresh Time**, and the **Monitoring** status (true or false). You can also **Export** this information to a PDF, XLS, or XML file.

<input type="checkbox"/>	Service	Service Name	Host Name	Authentication U...	Alert Refresh Ti...	Monitoring
<input type="checkbox"/>	SSAS	WIN-90GCKKJIPTJ	WIN-90GCKKJIPTJ	SQLBI Service Acc...	6	true
<input type="checkbox"/>	SSAS	WIN-90GCKKJIPTJ...	WIN-90GCKKJIPTJ	SQLBI Service Acc...	6	true
<input type="checkbox"/>	SSAS	SIDROCID01	SIDROCID01	SQLBI Service Acc...	6	true
<input type="checkbox"/>	SSIS	WIN-90GCKKJIPTJ	WIN-90GCKKJIPTJ	SQLBI Service Acc...	6	true
<input type="checkbox"/>	SSIS	WIN-90GCKKJIPTJ...	WIN-90GCKKJIPTJ	SQLBI Service Acc...	6	true
<input type="checkbox"/>	SSIS	SIDROCID01	SIDROCID01	SQLBI Service Acc...	6	true

You can also perform actions to either single or several BI instances.

### Perform actions on a single BI instance

After you select a SQL Server from the list, you can perform the following actions:

**Edit Properties** Allows you to modify the previously established credentials.

**Export** Allows you to export the information available to a PDF, XLS, or XML file. How much time a query uses the CPU.

**Remove** Allows you to remove instances that you no longer want to monitor.

Additionally, by clicking the gear icon you can also **Change Refresh Interval**, as well as to **Disable Monitoring** temporarily (during maintenance operations) and **Edit Properties**.

<input type="checkbox"/>	Service	Service Name	Host Name	Authentication U...	Alert Refresh Ti...	Monitoring
<input checked="" type="checkbox"/>	SSAS		WIN-90GCKKJIPTJ	SQLBI Service Acc...	6	true
<input type="checkbox"/>	SSAS		WIN-90GCKKJIPTJ	SQLBI Service Acc...	6	true
<input type="checkbox"/>	SSAS		SIDROCID01	SQLBI Service Acc...	6	true
<input type="checkbox"/>	SSIS	WIN-90GCKKJIPTJ	WIN-90GCKKJIPTJ	SQLBI Service Acc...	6	true
<input type="checkbox"/>	SSIS	WIN-90GCKKJIPTJ...	WIN-90GCKKJIPTJ	SQLBI Service Acc...	6	true
<input type="checkbox"/>	SSIS	SIDROCID01	SIDROCID01	SQLBI Service Acc...	6	true

9 total instances 6 per page 1 / 2

**Perform bulk actions on several BI instances**

After you select more than one SQL Server from the list, you can perform the following bulk actions:

- Edit Credentials** Allows you to modify the previously established credentials.
- Export** Allows you to export the information available to a PDF, XLS, or XML file.
- Remove** Allows you to remove instances that you no longer want to monitor.

Additionally, you can click the gear icon to access the option to temporarily **Disable Monitoring** (during maintenance operations), as well as to **Edit Credentials**.
