

Configuration wizard - Add Server window

The Add Server window of the Configuration wizard allows you to specify the SQL Server instance you want to register with IDERA SQL Compliance Manager. Once you register an instance, you can begin auditing database activity on that server.

Select the SQL Server instance you want to register, and then click **Next**.

Available fields

SQL Server

Allows you to specify the name of the target SQL Server instance, using the format *SQLServerName\InstanceName*. You can also browse for available SQL Server instances in your domain.

Description

Allows you to specify a description for this instance. The Management Console uses this description when you view SQL Server properties or report on audit data. Consider including information about the databases hosted on this instance, or the organization to which this instance belongs.

SQLcm Configuration Wizard - Add Server

Specify SQL Server
Specify the SQL Server to register with SQL Compliance Manager. Once a SQL Server is registered, you can begin auditing database activity on the server.
