

SQL Compliance Manager Home

Monitor, audit and alert on SQL Server user activity and data changes

- **Audit sensitive data.** See who did what, when, where, and how
- **Track and detect.** Monitor and alert on suspicious activity
- **Satisfy audits.** For PCI, HIPAA, FERPA, and SOX requirements
- **Generate reports.** 25 built-in reports to validate SQL Server audit trails
- **Minimize overhead.** Light data collection agent minimizes server impact
