

Copy Policies CLI Commands

SQL Safe provides you with CLI commands to help you manually copy policies.

To copy policies use the following commands:

- `SQLsafeCmd Copy-Policy <policy_name> <OriginalPolicyName>_yyMMdd_hhmmss`

Where:

Action	Description
<policy_name>	Name of the new policy.
<OriginalPolicyName>	Name of the existing policy from which you are creating the copy.
_yyMMdd_hhmmss	Date and time of the existing policy.
