

# Manage Products

The IDERA Dashboard hosts IDERA products that register with the Dashboard. To access product management in the IDERA Dashboard, either select **Manage Products** from the Administration menu or click **Manage Products** on the Administration view of the IDERA Dashboard. In the **Manage Products** window you can perform the following actions:

## Registering a product in the IDERA Dashboard

Follow the instructions below to manually register a product.

1. In the **Manage Products** view, click **Register a Product**. The IDERA Dashboard displays the **Add a Product to IDERA Dashboard** dialog.

2. Select the product you want to register from the available list or type in the name of the product.
3. Type a unique display name to help distinguish this instance from another instance if you have multiple installations of the same product. IDERA recommends a display name using the location or function, such as "DiagnosticManagerWest" or "DiagnosticManagerProd."
4. Type the name of the host instance where this product resides and the default port for the product. See the table below for information on the default ports for each product.

Idera Product	Product Name	Default Port	
SQL Business Intelligence	SQLBI	9277	
SQL Inventory Manager	SQLInventoryManager	9275	
SQL Diagnostic Manager	SQLdm	5170	
SQL Safe	SQLSafeRestService	9998	
Sample Product	SampleProduct	9200	
SQL Compliance Manager	SQLCM	9292	Can register manually as of version 5.4
SQL Workload Analysis	SQLWA	20700	Cannot register manually
SQL Enterprise Job Manager	SQLEJM	9271	Cannot register manually

5. In the **Product Administrator** section, type the user name and password for the administrator account using the *domain\username* format.
6. Click **Register**. A confirmation message appears warning you that the system logs out your session upon continuing.
7. Click **Yes**. Log in to begin using the newly-registered product.

## Editing a product in the IDERA Dashboard

Use the following steps to edit a product.

1. In the **Manage Products** view, select the product for which you want to change details. The IDERA Dashboard displays the related information in the **Edit Product** dialog.

The screenshot shows the IDERA Dashboard interface. At the top, there's a navigation bar with 'OVERVIEW', 'DETAILS VIEW', 'ALERTS', and 'ADMINISTRATION'. Below this, the 'MANAGE PRODUCTS' section is active. It features a search bar and a table of products. The table has columns for Product, Version, Registered, Location, and Credentials. One product, 'SQLBI(simpsons)', is selected. To the right, the 'Edit Product' dialog is open, showing fields for Product Name, Instance Name, Version, Registered, Location, Connection User, and Connection Password. The dialog also has buttons for 'Cancel', 'Save', 'Delete', and 'Migrate product?'.

Product	Version	Registered	Location	Credentials
IderaDashboard	3.0.3.74	May 10, 2017 02:50 PM	CH-SP2010	simpsons/administr...
SQLBI(simpsons)	2.1.1.11	Apr 17, 2017 11:28 AM	http://CH-SP2010:9277/S...	simpsons/administr...
SQLCM(simpsons)	5.3.1.390	Apr 17, 2017 02:08 PM	CH-SP2010:SQLcompliance	simpsons/administr...
SQLdm(simpsons)	10.1.0.0	Apr 17, 2017 02:00 PM	(local):SQLdmRepository	simpsons/administr...
SQLJM(simpsons)	2.0.0.118	Apr 17, 2017 01:56 PM	http://CH-SP2010:9271/S...	simpsons/administr...
SQLInventoryMana...	2.3.1.2	Apr 17, 2017 01:45 PM	http://CH-SP2010:9275/S...	simpsons/administr...
SQLSafe(simpsons)	8.4.0.101	Apr 17, 2017 11:19 AM	http://CH-SP2010:9998/S...	simpsons/administr...
SQLWorkloadAnalys...	1.6.0	Apr 17, 2017 02:31 PM	http://CH-SP2010:20700	simpsons/administr...

2. Make the necessary changes, and then click **Save**.

 Only user roles with administrative privileges can edit the products.

## Removing a product from the IDERA Dashboard

Use the following steps to remove a product from the IDERA Dashboard.

1. In the **Manage Products** view, select the product you want to remove from the IDERA Dashboard.
2. Verify that the **Edit Product** dialog displays the information for the correct product, and then click **Delete**. The IDERA Dashboard displays a warning message that requires a confirmation whether you want to unregister the product.
3. Click **Yes**. The IDERA Dashboard unregisters the product and users can no longer access that product.

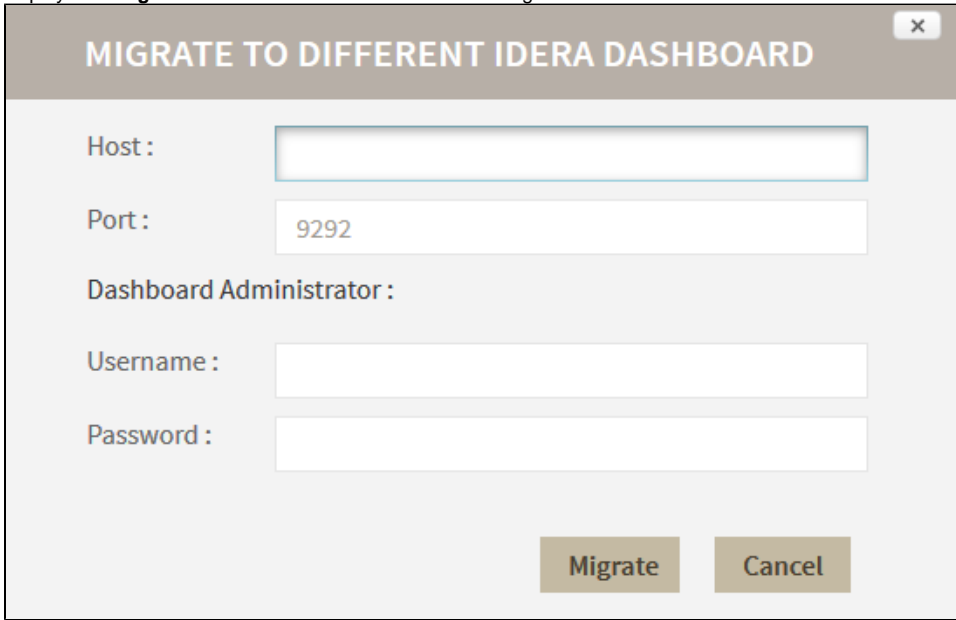

## Migrating a product to another IDERA Dashboard installation

Users who have multiple IDERA products also may have more than one version or installation of the IDERA Dashboard. To take advantage of all of the features of the latest version of the IDERA Dashboard, you can migrate your products from one version of the IDERA Dashboard to another. This process migrates data to the target installation of the IDERA Dashboard and un-registers the product from the previous IDERA Dashboard.

Use the following steps to migrate an IDERA product from one installation or version of the IDERA Dashboard to another.

1. In the **Manage Products** view, select the product you want to migrate from one installation of the IDERA Dashboard to another.

2. Verify that the **Edit Product** dialog displays the information for the correct product, and then click **Migrate product**. The IDERA Dashboard displays the **Migrate to different IDERA Dashboard** dialog.

**MIGRATE TO DIFFERENT IDERA DASHBOARD**

Host :

Port :

Dashboard Administrator :

Username :

Password :

**Migrate** **Cancel**

3. Type the name of the host machine on which the target IDERA Dashboard is installed and the port number.
4. In the **Dashboard Administrator** section, type the user name and password for the target IDERA Dashboard administrator account using the *domain\username* format.
5. Click **Migrate**. The IDERA Dashboard migrates the product to the target IDERA Dashboard.

**IDERA Dashboard** provides an integrated user experience for the IDERA products in your environment.
