

Add SQL Compliance Manager Agent Service wizard - Collection Server tab

The Collection Server tab lets you to specify which computer is currently hosting the Collection Server. The SQL Compliance Manager Agent Service receives audit settings from the Collection Server and sends collected SQL events to the Collection Server for processing. Ensure the SQL Compliance Manager Agent Service has access to the Collection Server computer.

Specify the Collection Server to which the SQL Compliance Manager Agent Service should connect, and then click **Next**.

SQL Compliance Manager monitor, audit and alert on SQL user activity and data changes.
