

## Review registration summary

Review the provided summary for the instance you are adding to IDERA SQL Secure, and then click **Finish**. If you want to change a setting now, click **Back** to return to the appropriate section. You can also change audit settings later using the [Audited SQL Server Properties](#) window.

**Register a SQL Server**

### SQL Server Registration Summary

**SQL Server** : CH-SP2010  
**Credentials** : Specified credentials  
**Collection Filter** :
 

- All Server objects, Database Security objects, Stored Procedures and Extended Stored Procedures
- All System and User Databases
  - All System and User Tables
  - All System and User Views
  - All System and User Functions
  - All Synonyms, Assemblies, User-defined Data Types, XML Schema Collections, Full Text Catalogs, Keys, Certificates and Sequence Objects

**Job Schedule** : Occurs every week on Sunday at 3:00:00 AM  
**Notification** : No Email notification requested.  
**Data Collection** : Collect data after server registration.

As part of the SQL Server registration process, a data collection job will be created.

Click the **Finish** button to register this SQL Server.

Before finishing this process, make sure the **port number** is the correct one, it throws an error when trying to change it after registration.

When you **Finish** this wizard, SQL Secure enables auditing on the selected SQL Server instance.
