

Reconfigure the existing SQL Safe Management Console

1. Open the *SQL Safe Management Console*, and click on *Tools > Repository > Management Service Settings*.
2. In the *Location of Management Service for this console*, click on *Change* to supply the name of the new server hosting the *SQL Safe Management Service* settings.
3. Click *OK* to save the changes.
4. Click *OK* on the *Repository and Management Service Settings* window to save the changes.
5. Repeat steps 1 to 4 on all other workstations where the *SQL Safe Management Console* is installed.
