

## Select policies

The Policy window lets you select policies to apply to the instance you are registering. Select the policies you want to apply, and then click **Finish**. The following sample policies are available:

### **Rebuild Online Daily Top 10**

Rebuild Online if available on a daily schedule the top 10 most fragmented indexes over 70%

### **Rebuild Weekly All**

Rebuild indexes where fragmentation is greater than 70% and page count is greater than 1,000

### **Reorganize Daily All (Nightly Window)**

Reorganize indexes where fragmentation is greater than 30% and page count is greater than 1,000

### **Reorganize Interval Top 10%**

Reorganize the top 10% of the indexes on a one-hour interval that are greater than 30% fragmented

### **Reorganize Interval Top 10**

Reorganize the top 10 indexes on a one-hour interval that are greater than 30% fragmented

### **Reorganize Large Indexes (Nightly Window)**

Reorganize the largest indexes (greater than 10,000 pages) with fragmentation greater than 70% only during the nightly maintenance window (12 am to 4 am)

### **To Do List Reorganize Large Indexes**

Run a policy once a week to create a To Do list of large indexes (greater than 10,000 pages) that are candidates for reorganization

### **To Do List Reorganize Medium Indexes**

Run a policy daily to create a To Do list of medium indexes (greater than 1,000 but less than 10,000 pages) that are candidates for reorganization.
