

Log in to the IDERA Dashboard

- [Version 3.0](#)
- [Version 3.2](#)

Once you have installed and configured your IDERA Dashboard, you can log in to the web console by doing either of the following:

1. Access the IDERA Dashboard through the Start Menu.

- Click 'Start', then **All programs>Idera>Idera Dashboard**.
- Click 'Idera Dashboard' application and it automatically opens your default browser with an HTTP connection.
- When the IDERA Dashboard web console launches on your browser, use your Windows user account **<domain\user>** with the respective password to log in to the product.

 The IDERA Dashboard allows you to change to a secure connection. Click the 'Switch to a secure connection' option and it will automatically redirect you to a connection with HTTPS.

 In order to establish a secure connection, you need a CA-signed certificate. Self-signed certificates are no longer supported by Chrome, Firefox and Internet Explorer browsers.

2. The second option to log in to the IDERA Dashboard is as follows.

- Open your selected Browser. Make sure it is compatible with the IDERA Dashboard [browser requirements](#).
- Type the IDERA Dashboard product URL: **https://<machinename>:<port>** where **<machinename>** is the name of your host or machine, and **<port>** is the port specified during installation. The default URL is **https://<localhost>:9291** or **https://<machinename>:9291**.
- When the IDERA Dashboard web console launches on your browser, use your Windows user account **<domain\user>** with the respective password to log in to the product.
