

Send Notification

The **Send Notification to All Users** option in the Administration view allows you to send a notification message to all user accounts registered in the IDERA Dashboard. Use this feature to notify users about product upgrades and other issues affecting product use.

Follow the instructions below to send a notification:

1. Click **Send Notification** in the Administration tab to open the text field for the message you want to send.

A dialog box titled "Specify message to inform users". It contains a text input field with the placeholder text "NOTIFICATION MESSAGE". Below the input field is a button labeled "Send".

2. Type the message and click **Send**.
3. IDERA Dashboard displays the message as all the other registered users will see it. Click **OK** to close the message.

A notification dialog box with a grey header bar containing a warning icon and the word "Warning". The main area is white and contains the text "Warning" followed by "NOTIFICATION MESSAGE". A blue button labeled "Ok" is in the bottom right corner. A close button (X) is in the top right corner of the header bar.

 The IDERA Dashboard shows the message to the registered users when they have their session started. For more information on registering users visit [Manage users](#).

IDERA Dashboard provides an integrated user experience for the IDERA products in your environment.
