

# Sending notifications in the IDERA Dashboard

The Send Notification to All Users widget of the Administration view allows users to send a product upgrade warning message to all users.

## To send a notification:

1. Select **Send Notification** in the Administration view, and the Send Notification to All Users window displays:

The screenshot shows the 'Send Notification to All Users' window. It has a title bar 'Specify message to inform users' and a text input field. Below the input field is a 'Send' button.

2. Type your warning message and click **Send**.
3. A preview of your warning displays. If you want to proceed, click **OK**.

IDERA SQL Inventory Manager lets you discover and visualize your SQL Server environment. [Learn more >>](#)
