

# Managing users in the IDERA Dashboard

The Users section of the IDERA Dashboard Administration view allows you to add users and groups, grant access to other team members or groups, and manage roles. For more information about user roles, see [Understanding user roles](#). Users with administrative privileges are divided into two groups:

- **Dashboard Administrator.** Allows the user to manage access over Dashboard functions as well as individual product functions.
- **Product Administrator.** Allows the user to grant access to individual products for which they have administrative rights.

 Users must be existing **Active Directory** users. Newly-added users must use their Windows user account and password to log in to your IDERA products.

To access user management in IDERA Dashboard, either select **Manage Users** from the Administration menu or click **Manage Users** on the Administration view of IDERA Dashboard.

## Adding a user in the IDERA Dashboard

In the IDERA Dashboard, you can grant access to Windows users or groups. Use the following steps to add a user account:

1. In the Manage Users view, click **Add User / Group**. IDERA Dashboard displays the User/Group Details dialog.

The image shows a 'User/Group Details' dialog box with a dark header. The form contains the following fields and controls:

- Account name:** A text input field with a red asterisk. Below it is a hint: 'Windows user account in form "domain\accountname".'
- Display name:** A text input field.
- Account Type:** Two radio buttons labeled 'User' (selected) and 'Group'.
- Session Timeout:** A checkbox labeled 'Do not timeout the browser session for this account.'
- Product:** A dropdown menu with a red asterisk.
- Role:** A dropdown menu with a red asterisk.
- Buttons:** 'Save' and 'Discard changes' buttons at the bottom right.

2. Type the account name of the user to which you want to grant access. Enter a Windows user name in the format `<domain\accountname>`.
3. *Optional.* In the **Display name** field, type the common name you want to appear when in use.
4. In the **Account Type** field, select **User** or **Group**.
5. *Optional.* Check **Do not timeout the browser session for this account** if you want the user to be able to remain logged in to your IDERA products even after a period of inactivity.
6. In the **Product** field, select the IDERA product name to which you want to add this new user account.  
**If you select IDERA Dashboard in the Product field**, the **Role** field allows you to select from the Dashboard Administrator and Dashboard Guest roles.  
**If you select a different IDERA product in the Product field**, the **Role** field allows you to select from the Product Administrator, Product User, and Product Guest roles.
7. In the **Role** field, select the role you want to assign to this new user account. For more information about the permissions available to each user role, see [User role permissions](#).  
**If you want to add more roles to this user account or group**, click **Add More**. IDERA Dashboard displays additional **Product** and **Role** fields for you to add another role.
8. Click **SAVE**.

## Editing a user in the IDERA Dashboard

Simply selecting the row of an existing user account allows you to edit the account name, display name, enable or disable the user account, and add new permissions. Use the following steps to edit a user or group:

1. In the Manage Users view, click the row of the account you want to edit. IDERA Dashboard displays the User/Group Details dialog, populated with the known detail for that account.

**User/Group Details**

Account name: \* simpsons\saumya  
Windows user account in form "domain\accountname".

Display name: Sarah Ann Umya

Account Enabled: ☒

Product: SQLInventoryMana... Role: ProductUser ✕  
Product: IderaDashboard Role: DashboardAdministrator ✕

[Add new permission](#)

[Delete](#) [Save](#) [Discard changes](#)

2. Make the necessary changes. **If you want to add more roles to this user account or group**, click **Add New Permission**. IDERA Dashboard displays additional **Product** and **Role** fields for you to add another role.
3. Click **SAVE**.

## Removing a user from the IDERA Dashboard

Clicking **Delete** for an existing user account or group allows you to remove that account from access to the IDERA Dashboard. Use the following steps to delete a user or group.

1. In the Manage Users view, click the row of the user account or group that you want to delete. IDERA Dashboard displays the User/Group Details dialog.

**User/Group Details**

Account name: \* simpsons\saumya  
Windows user account in form "domain\accountname".

Display name: Sarah Ann Umya

Account Enabled: ☒

Product: SQLInventoryMana... Role: ProductUser ✕  
Product: IderaDashboard Role: DashboardAdministrator ✕

[Add new permission](#)

[Delete](#) [Save](#) [Discard changes](#)

2. Click **Delete**. IDERA Dashboard displays a warning message that requires a confirmation whether you want to delete that selection.
3. Click **Yes**. IDERA Dashboard removes the user account or group and they can no longer access the IDERA Dashboard using the account. **If you did not mean to delete the selected account**, click **No**.
