

What is SQLsafe?

Idera SQLsafe (SQLsafe) provides a high-performance backup and recovery solution for Microsoft SQL Server. SQLsafe saves money by reducing database backup times by up to 50% over native backups and reducing backup disk space requirements by up to 95%. SQLsafe also enables complete "hands-free" automated backups of your entire SQL Server infrastructure and ensures compliance with your organization's backup and recovery policies. From implementations with tens of SQL Servers to enterprises with hundreds of instances spread around the globe, SQLsafe is the only SQL Server backup and recovery solution that scales to meet the challenge.

SQLsafe is a high-performance backup and recovery solution for your SQL Servers. [Learn more >](#)
