Monitor SQL Compliance Manager Agent activities

You can monitor IDERA SQL Compliance Manager change activity and SQL Compliance Manager Agent events. By default, SQL Compliance Manager automatically monitors changes applied to the Repository databases as well as SQL Compliance Manager Agent updates.

To track additional activities, such as failed logins, audit the Repository and archive databases. For more information, see Register your SQL Servers.

To monitor SQL Compliance Manager activities:

1. Select the SQL Server instance you want to monitor from the **Explore Activity** tree.
2. View the SQL Server activity summary on the Summary tab and view Alerts, Audit Events, and Archived Events information from each of the respective tabs.
