

# View Configuration Settings

IDERA SQL Inventory Manager provides you a view of the configuration settings for the SQL Server instances that you choose to monitor. The configuration settings window shows you the global configuration settings for the selected SQL Server instance.

To access this information, go to the **Instance Details** view. On the right sidebar of the window, on the **Instance Summary** section, click **View Configuration Settings** and IDERA SQL Inventory Manager opens a window with the configuration settings of the respective instance.

The **Configuration Settings** window shows you the following information:

- Property Name
- Running Value
- Configured Value
- Description

**Configuration Settings**

Instance WIN-IR53181517Q

| Property Name                   | Running Value | Configured Value | Description  |
|---------------------------------|---------------|------------------|--|
| access check cache bucket count | 0             | 0                | Default hash bucket count for the access check result security cache |
| access check cache quota        | 0             | 0                | Default quota for the access check result security cache             |
| Ad Hoc Distributed Queries      | 0             | 0                | Enable or disable Ad Hoc Distributed Queries                         |
| affinity I/O mask               | 0             | 0                | affinity I/O mask  |
| affinity mask                   | 0             | 0                | affinity mask  |
| affinity64 I/O mask             | 0             | 0                | affinity64 I/O mask  |
| affinity64 mask                 | 0             | 0                | affinity64 mask  |
| Agent XPs                       | 0             | 0                | Enable or disable Agent XPs  |
| allow updates                   | 0             | 0                | Allow updates to system tables                                       |
| backup checksum default         | 0             | 0                | Enable checksum of backups by default                                |
