

## Instance level view

The **Instance Level** view groups information in two tabs, **Logins** and **Roles**.

### Logins

The **Logins** tab shows a list of all the logins for a server with the following columns:

**Name:** The name of a Windows user, Windows group, or SQL user.

**Object Type:** Windows User, Windows Group, or SQL User.

**Member Of:** A list of the roles a user is a member of.

**Connect Permission:** Shows connection permissions as Granted or Denied.

**Login Status:** Shows a users login status as Enabled or Disabled.
