

## Start or stop SQL Traffic Accelerator

You can stop or start the SQL Traffic Accelerator service from the System tray icon by right-clicking the icon, and then selecting **Start SQL Traffic Accelerator** or **Stop SQL Traffic Accelerator**.

You can also access this functionality through the SQL Traffic Accelerator Control Console window by clicking **Settings and Control**. SQL Traffic Accelerator displays the SQL Traffic Accelerator Settings and Control window as shown in the following image.

To start SQL Traffic Accelerator, click **Start**. Note that the icon in the **Control SQL Traffic Accelerator** box changes from red to green.

To stop **SQL Traffic Accelerator**, click **Stop**. The system displays a confirmation message to make sure you want to stop the service. Click **Yes** to continue. Note that the icon in the **Control SQL Traffic Accelerator** box changes from green to red.

## Available options

Note that the **Start** button is available only when SQL Traffic Accelerator service is stopped, and the **Stop** button is available only when SQL Traffic Accelerator service is started.
