

Viewing information on the dashboard

The SQL Business Intelligence Manager dashboard is the home page of the product. The dashboard integrates seamlessly with the IDERA common technology framework ([IDERA Dashboard](#)) and provides an overview of your SQL BI environment, a high-level status of your registered instances and SQL BI services, and alerts about issues found across your SQL BI environment.

The screenshot displays the IDERA SQL BI Manager dashboard. The top navigation bar includes the IDERA logo, a hamburger menu, and user information (example/admin). The main navigation tabs are DASHBOARD, ALERTS, SSAS, SSRS, SSIS, and ADMINISTRATION. The dashboard content is divided into several sections:

- Current Active Alerts:** A table listing alerts with columns: BI Service, First Seen, Alert Preview, and Alert Threshold. It shows four alerts related to SSIS service status and processor queue lengths.
- 10 Most Active SSAS Service Instances:** A table with columns: SSAS Instance Name, Availability, CPU, Memory, and I/O Activity. It lists two instances: WIN-90GCKKJPTJ and SIDROCID01.
- 10 Most Active SSIS Service Instances:** A table with columns: SSIS Instance Name, Availability, CPU, Memory, and I/O Activity. It lists three instances: WIN-90GCKKJPTJ, WIN-90GCKKJPTJ/WINSTANCE2, and SIDROCID01.
- 10 Most Active SSRS Service Instances:** A table with columns: SSRS Instance Name, Availability, CPU, Memory, and I/O Activity. It lists three instances: WIN-90GCKKJPTJ, WIN-90GCKKJPTJ/WINSTANCE2, and SIDROCID01.

On the right side, there is a sidebar with a summary of the environment status (Up, Down, Critical counts) and a 'MY ENVIRONMENT' section listing the status of various services (All SSAS, All SSIS, All SSRS, Disabled SSAS, Disabled SSRS, Disabled SSIS, Available Licenses, Side-By-Side Server Performance).

On the dashboard you can find the following sections:

- [Active alerts roll up view](#)
- [10 Most Active SSAS Service Instances](#)
- [10 Most Active SSIS Service Instances](#)
- [10 Most Active SSRS Service Instances](#)
- [My environment](#)
