

SSRS performance view

The SSRS performance view provides comprehensive information on the SQL Server Reporting Services and servers.

The screenshot shows the SSRS performance view. The top navigation bar includes Dashboard, Alerts (4), SSAS, SSRS (selected), SSIS, and Administration. The left sidebar lists Overview, Server Performance, Report Server Performance, Reporting Services (selected), Reporting Activity, and User Activity. The main content area is titled 'Reporting Services' and includes an 'Add SSRS Instance' link and an 'Export' button. Below this is a table with the following data:

	SQL Server	Version	Edition
<input type="checkbox"/>	SIDROCID01	SQL Server 2008 R2 RTM (10.50.16...	Standard Edition (64-bit)
<input type="checkbox"/>	WIN-90GCKKJIPTJ	SQL Server 2014 (12.0.2000.0)	Enterprise Evaluation Edition (64-...
<input type="checkbox"/>	WIN-90GCKKJIPTJ\SERVER012	SQL Server 2014 (12.0.2000.0)	Enterprise Evaluation Edition (64-...

At the bottom of the table, it says '3 total instances' and '10 per page'.

In the SSRS performance view you can:

- Get an overview of your SQL Server Reporting Services status and health.
- Add SSRS instances for monitoring.
- Export the current view to a PDF, XLS, or SML file.
- Perform actions on a single BI instance.
- Perform bulk actions on several BI instances.
- Access information of a specific monitored BI instance.

Overview of your SQL Server Reporting Services

The SSRS performance view provides an overview of your SQL Server Reporting Services and the server they reside on. Information displayed includes:

- All monitored instances
- Status of monitored instances
- SQL Server version and edition

Add SSRS instances for monitoring

Click the **Add SSRS Instance** option above the list to open the Add Instance Wizard. It automatically defines the service you want to monitor as SSRS.

Perform actions on a single BI instance

After you select a SQL Server from the list you can perform the following actions:

Refresh Data: Allows you to update the information manually.

Edit Properties: Allows you to modify the previously established credentials.

Export: Allows you to export the information available on the SSRS performance view to a PDF, XLS, or XML file.

Remove: Allows you to remove instances that you no longer want to monitor.

Additionally, by clicking the gear icon you can also **Disable Monitoring** temporarily (during maintenance operations), as well as to **Refresh Data** and **Edit Properties**.

Reporting Services

Refresh Data | Edit Properties | More Actions

<input type="checkbox"/>	SQL Server	Version	Edition
<input checked="" type="checkbox"/>	SIDROCID01	8 R2 RTM (10.50.16...	Standard Ed
<input type="checkbox"/>	WIN-90GCKKJIPTJ	4 (12.0.2000.0)	Enterprise E
<input type="checkbox"/>	WIN-90GCKKJIPTJ\SERVER012	4 (12.0.2000.0)	Enterprise E

3 total instances 10 per page

Perform bulk actions on several BI instances

After you select more than one SQL Server from the list, you can perform the following bulk actions:

Edit Credentials: Allows you to modify the previously established credentials.

Export: Allows you to export the information available on the SSRS performance view to a PDF, XLS, or XML file.

Remove: Allows you to remove instances that you no longer want to monitor.

Additionally, you can click the gear icon to access the option to temporarily **Disable Monitoring** (during maintenance operations), as well as to **Edit Credentials**.

Reporting Services

Edit Credentials | More Actions

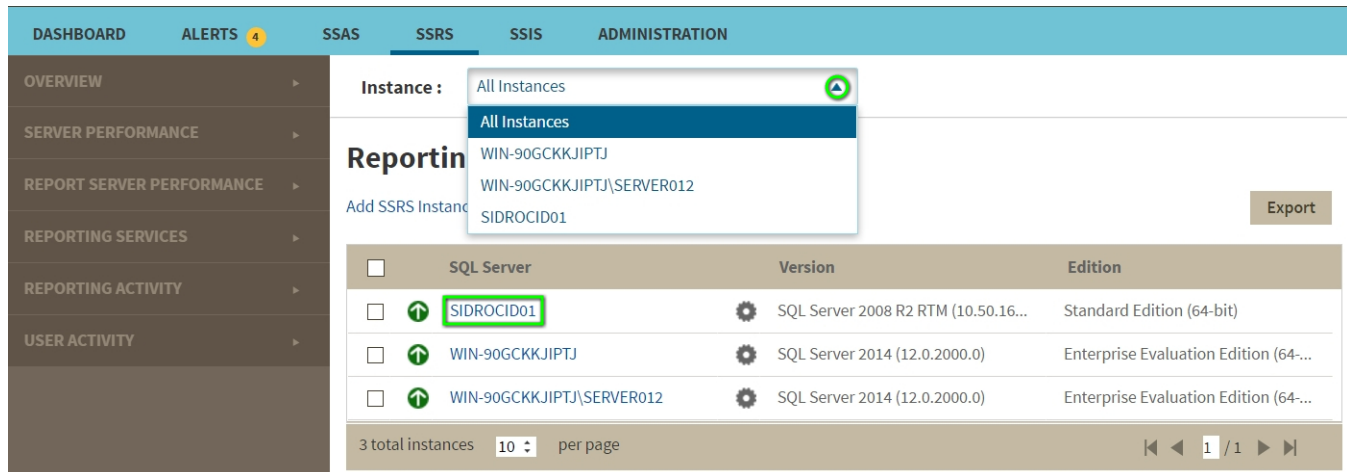

<input type="checkbox"/>	SQL Server	Version	Edition
<input checked="" type="checkbox"/>	SIDROCID01	SQL Server 2008 R2 RTM (10.50.16...	Standard Ed
<input checked="" type="checkbox"/>	WIN-90GCKKJIPTJ	000.0)	Enterprise E
<input type="checkbox"/>	WIN-90GCKKJIPTJ\SERVER012	000.0)	Enterprise E

3 total instances 10 per page

❗ If you remove an instance, SQL BI Manager no longer monitors that instance and deletes all associated data from the database.

Access information of a specific monitored BI instance

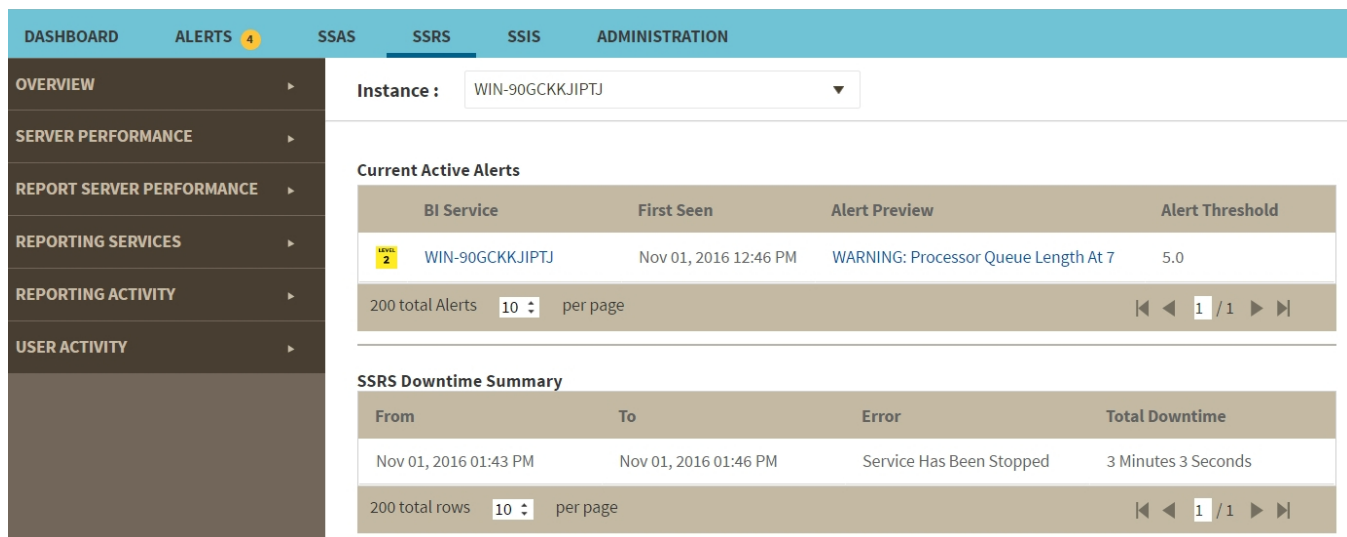

You can access detailed information about a specific monitored BI instance by selecting it from the instance drop-down or by clicking the name of the instance from the list.

The screenshot shows the 'Reporting' section of the SQL BI Manager interface. The 'Instance' dropdown menu is open, showing a list of instances: 'All Instances', 'WIN-90GCKKJIPTJ', 'WIN-90GCKKJIPTJ\SERVER012', and 'SIDROCID01'. The 'SIDROCID01' instance is highlighted. Below the dropdown, a table lists the instances with columns for 'SQL Server', 'Version', and 'Edition'. The 'SIDROCID01' instance is selected and highlighted in green.

SQL Server	Version	Edition
SIDROCID01	SQL Server 2008 R2 RTM (10.50.16...	Standard Edition (64-bit)
WIN-90GCKKJIPTJ	SQL Server 2014 (12.0.2000.0)	Enterprise Evaluation Edition (64-...
WIN-90GCKKJIPTJ\SERVER012	SQL Server 2014 (12.0.2000.0)	Enterprise Evaluation Edition (64-...

Upon your selection, an instance summary with basic details such as **Machine Name** and **Host Server** displays. You can also view current active alerts specific to the instance and a summary of SSRS downtime.

The screenshot shows the 'Reporting' section of the SQL BI Manager interface for the 'WIN-90GCKKJIPTJ' instance. The 'Current Active Alerts' section displays a table with columns: 'BI Service', 'First Seen', 'Alert Preview', and 'Alert Threshold'. The 'Alert Preview' column shows a warning: 'WARNING: Processor Queue Length At 7'. The 'SSRS Downtime Summary' section displays a table with columns: 'From', 'To', 'Error', and 'Total Downtime'. The 'Error' column shows 'Service Has Been Stopped'.

BI Service	First Seen	Alert Preview	Alert Threshold
WIN-90GCKKJIPTJ	Nov 01, 2016 12:46 PM	WARNING: Processor Queue Length At 7	5.0

From	To	Error	Total Downtime
Nov 01, 2016 01:43 PM	Nov 01, 2016 01:46 PM	Service Has Been Stopped	3 Minutes 3 Seconds

Click the Alert Preview text from the current active alerts list to display the specific chart or detailed information.

On the left sidebar, you can choose from several options that display information and charts for both SSRS performance and server performance. [Click here](#) to learn more about the SSRS metrics available.
