

Hardware requirements

SQL BI Manager collection service requirements

The following are the minimum requirements for hosting the SQL BI Manager collection service:

Hardware type	Requirement
CPU	1 GHz
Memory	1 GB
Hard Drive Space	128 MB
Monitor Resolution	1024 by 768 pixels

SQL BI Manager repository requirements

For the SQL BI Manager database repository, you need 1GB to 3GB for one year of data, per monitored BI Service instance.
