IDERA Data Compare command line

IDERA Data Compare for Oracle Database command line provides for comparing and synchronizing the content of Oracle databases via the command line.

With the command line you can:

- Perform automated data comparison and synchronization;
- Compare and synchronize database content as part of your setup and deployment solution;
- Compare database content and execute the data synchronization script in batch files;
- Schedule the comparison.

The command line comes with samples for most typical data comparison scenarios. The sample configuration files are located under **\Program Files (x86)\Idera\Oracle Comparison Toolset\Command Line Samples\Data Compare**.
