New features and fixed issues

- Version 3.0
- Version 3.2

The IDERA Dashboard provides the following new features and fixed issues:

3.8 New features

SQL Server Version

IDERA Dashboard supports SQL Server 2008 and later versions.

Linux Support

SQL Server lets users migrate IDERA Dashboard Repository between SQL Server Windows and SQL Server Linux instances. Find more information here.

3.8 Fixed issues

Core Service and Web Service Performance

Improved Core Service and Web Service performance.

REST APIs Performance

Improved REST APIs timing performance.

Error while fetching data

The IDERA Dashboard overview widgets no longer displays the error message "Error while fetching data".

SQL Diagnostic Manager groups and login accounts

The IDERA Dashboard displays data for SQL Diagnostic Manager groups and individuals login accounts normally.

IDERA Dashboard provides an integrated user experience for the IDERA products in your environment.
