

Check the SQLcompliance Agent status

You can quickly check the status of a SQLcompliance Agent that is deployed to a registered SQL Server instance you are auditing. This feature provides a summary of the agent health. For more detailed information to help troubleshoot an issue, see the agent properties.

To check the SQLcompliance Agent status:

1. Navigate to **Registered SQL Servers** in the **Administration** tree.
2. Select the SQL Server instance that hosts the SQLcompliance Agent you want to check.
3. Click **Check Agent** on the **Agent** ribbon.
4. Review the status, and then click **OK**. To obtain more detailed information about the agent, review the agent properties. To refresh the status displayed in the Registered SQL Servers tab, click Refresh on the View menu.

SQL Compliance Manager audits all activity on your server. [Learn more](#) > >
