View your activity summary

IDERA SQL Compliance Manager allows you to view the summary across SQL Server activity on your enterprise, on individual SQL Server instances, and on individual databases. These summary tabs allow you to quickly check your compliance status and indicates whether any potential problems exist so that you can investigate them more thoroughly.

You can view the following summary tabs:

Audited SQL Servers Summary

Displays the overall system status, the Enterprise Activity Report Card, and a breakdown of alert activity on all the SQL Server instances registered with SQL Compliance Manager.

Instance Summary

Displays the overall server status, the Server Activity Report Card, audit configuration, and recent audit events that have occurred on the selected SQL Server instance.

Database Summary

Displays the event distribution, recent database activity, audited activity, and recent audit events for the selected database.

SQL Compliance Manager audits all activity on your server. Learn more > >
