## To Edit Server Default Audit Settings follow the steps below:

- 1. From the Administration view, select the Default Audit Settings tab.
- 2. Click the Edit Server Default Audit Settings option.
- 3. Set your desired SQL Server Default Audit Settings, for more information on how to configure these settings, visit the SQL Server Default Audit Settings page.
- 4. Once done configuring your desired settings, Click Save.

Users can reset back to the Idera Default Audit Settings at any time by clicking the Reset to Idera Default Settings button.
