

Sending notifications in the IDERA Dashboard

The Send Notification to All Users widget of the Administration view, allows users to send a product upgrade warning message to all users.

To send a notification:

1. Select **Send Notification** in the Administration view, and the Send Notification to All Users window displays:

The screenshot shows the IDERA Dashboard Administration view. The top navigation bar includes a user profile icon labeled 'simpsons\administrator', a gear icon labeled 'Administration', and a question mark icon labeled 'Help'. Below the navigation bar, there are several configuration sections: 'Configure Navigation Order' with a link 'Customize Main Navigation Tab Order', 'Configure Dashboard Views' with a link 'Customize DBA Dashboard', and 'Send Notification to All Users' with a description 'Add a warning message to notify all users about product upgrades.' The 'Send Notification to All Users' section is highlighted with a green border. It contains a text input field labeled 'Specify message to inform users' and a 'Send' button. To the right of the input field, there is a partially visible link 'Manage Licenses action.'

2. Type your warning message and click **Send**.
3. A preview of your warning displays. If you want to proceed, click **OK**.

SQL **Diagnostic Manager** identifies and resolves SQL Server performance problems before they happen. [Learn more >](#)
