

Management Console User Interface

The IDERA SQL Compliance Manager Management Console is a centralized, intuitive user interface that allows you to easily and quickly modify audit settings, monitor events, and report on audit data. This user interface also provides the following information:

- Real-time status of audited SQL Server instances
- SQL Server login permissions
- Detailed logging of change activity
- Track and prove continual compliance using reports

SQL Compliance Manager audits all activity on your server. [Learn more > >](#)
