

Activity Log tab

The Activity Log tab lists events and alerts initiated by the IDERA SQL Compliance Manager components, allowing you to monitor SQL Compliance Manager operations and diagnose issues.

Available actions

View activity details

To view detailed information about a particular event, double-click the event entry in the Activity Log.

View system alerts

To view detailed information about a system alert, double-click the event entry in the Activity Log. SQL Compliance Manager generates the following types of system alerts.

| System Alert | Caused by ... | Resolves when ... |
|-------------------------------------|--|---|
| Agent Configuration Error | Error saving the SQL Compliance Manager Agent configuration file (.bin) Error loading the new configuration | File is successfully saved SQL Compliance Manager Agent configuration is successfully updated |
| Collection Service Connection Error | Collection Server is offline or the SQL Server instance hosting the Repository is offline | Connection to the collection service is established |
| CLR Error | Error when enabling CLR, creating or modifying the before-after data trigger, or performing a health check | SQL Compliance Manager Agent configuration update or health check is successful |
| Server Connection Error | Error when connecting to the audited instances, due to invalid permissions or the offline SQL Server instance | Connection is established |
| SQL Trace Error | Error when starting or stopping the audit traces | Audit traces are started or stopped |
| Trace Directory Error | Error when creating trace directory or when reaching the maximum size allocated for the trace directory | Trace directory is created or the trace files are transferred to the Collection Server for processing |

Page through activities

Allows you to page through the list of activities. Use the previous and next arrows to navigate from page to page, up and down the list.

Filters

Allows you to filter the listed activities by time span (for example, last seven days).

Enable Groups

Allows you to group activities by a specific property, such as the computers on which the activities occurred or the times the activities occurred. Enable groups when you want to sort the activities or focus on a particular activity attribute.

Refresh

Allows you to update the activity list with current data.

Available columns

Date

Provides the date that the event occurred.

Time

Provides the time that the event occurred.

SQL Server

Provides the name of the SQL Server instance, using the format SQLServerName\InstanceName.

Event

Provides the type of event that occurred.

Details

Displays the first line of the event details.

SQL Compliance Manager audits all activity on your server. [Learn more > >](#)
