Navigate the IDERA Dashboard

What is the IDERA Dashboard?

The **IDERA Dashboard** is a common technology framework designed to support the entire IDERA product suite. The **IDERA Dashboard** allows users to get an overview of their SQL Servers' status and hosted databases in a consolidated view while providing users the means to drill in to individual product dashboards for details.

The **IDERA Dashboard** is comprised of the following tabs:

- Overview
- Details View
- Alerts
- Administration

What actions can be performed in the Overview tab of the IDERA Dashboard?

In the **IDERA Dashboard** users can glance at their registered products' overall status through the **Overview** tab. This tab contains product widgets of all the products registered with the IDERA Dashboard. By default the **Overview** tab contains the following widgets:

- **Alert Status** - Displays the total number of alerts available on the environment at the current date and time. It also displays the number of alerts by status: Critical, Warning, Informational, or Ok.
- **Instance status** - displays the total number of the monitored instances on the environment in the current date and time. It also displays the number of instances by status: Critical, Warning, Informational, Ok, or Disabled.

> ⊘ You can expand or collapse a widget by clicking ⌃ . You can also view a widget in full size by clicking ⤢ or remove it by clicking ✕ .

Additionally, you can **Filter** information either by product or tags on the top section of this tab. If you want to remove your filters, click on **Clear filters**.

What actions can be performed in the Details view of the IDERA Dashboard?

The **Details View** allows users to view their **Instance Details**. Select the instance on the drop-down list available and the **IDERA Dashboard** will filter information regarding that instance.

What actions can be performed in the Alerts view of the IDERA Dashboard?

The **Alerts** view allows users to view the information about available alerts on the environment. This information can be filtered by:

- Product
- Category
- Severity
- Metric
- Tag

> ⊘ When using filters consider:
>
> - Click the respective checkbox to add or remove your selections.
> - If you want to select filters first and apply the changes later, deselect the **Apply filter as it changes the** option.
> - To remove filters, use the specific **Remove Filter** option in each filter. For example, if you want to remove your product filters, click **Re move Product Filter** under the same filter section.
> - Under **Applied filters** on the top section of your **Alerts** view, you can see the filters you have selected. Click the **X** icon next to the ones you want to remove.
> - Use the option **Clear** on the top section of the **Filtering** to remove all filters.

What other options are available on the IDERA Dashboard?

Once on the **IDERA Dashboard** page, click the ⚙ gear icon available for the **Administration** settings. Once you click on it, there are the following options available:

What actions can be performed in the Administration view of the IDERA Dashboard?

In the **IDERA Dashboard**, all products show a common **Administration** tab when the logged-in user has administrator privileges. Selecting this tab displays the Administration view which hosts a range of sections for performing administration-related actions.

In this tab you can perform the following options:

- Manage Users
- Manage Instances
- Manage Products
- Managing Tags
- Configure Navigation Order
- Configure Dashboard Views
- Send Notifications
- Manage Licenses

⊘ Most of these options can also be accessed from the ⚙ gear icon located on the top right corner of the UI.
