

# Configure navigation order in the Idera Dashboard

The Configure Navigation Order widget of the Administration view, allows users to customize the order of the different Idera products on the navigation tab.

The screenshot shows the Idera Dashboard interface. At the top, there's a header with the Idera logo and a welcome message "Welcome simp". Below the header is a navigation bar with three tabs: "OVERVIEW", "DETAILS VIEW", and "ADMINISTRATION". The "ADMINISTRATION" tab is selected. The main content area is titled "ADMINISTRATION" and contains three sections: "Users", "Instances", and "Products". Each section has a brief description and a "Manage" link. On the right side of the "ADMINISTRATION" section, there is a blue-bordered box containing two links: "Configure Navigation Order" and "Configure Dashboard Views".

## To rearrange product tabs:

1. Click the **Customize Main Navigation Tab Order** link and a dialog displays.

The screenshot shows a dialog box titled "Customize Main Navigation Tab Order". It has a close button (X) and a "Reset to default order" link. Inside the dialog, there are two tabs: "IDERADASHBOARD" and "SQLDM". Below the tabs, there is a text prompt: "Drag tabs over each other to re-arrange the tabs." At the bottom right, there are "CLOSE" and "SAVE" buttons.

2. Move tabs using a drag-and-drop operation.

SQL **Diagnostic Manager** identifies and resolves SQL Server performance problems before they happen. [Learn more >](#)
