ADMINISTRATION

ADMINISTRATION

Users

Give users permission to use the Idera Dashboard. Create, edit and delete users with the Manage Users action.

Manage Users

Instances

The Idera Dashboard tracks SQL Server Instances discovered and managed by Idera products. Use Manage Instances to view and manage this list.

Manage Instances

Products

The Idera Dashboard hosts products that register with the dashboard. Typically this is handled at the time the product is installed or uninstalled. The Manage Products option lets you view and manage the list of registered products.

Manage Products

Configure Navigation Order

Customize the order of the products on the navigation tab.

Customize Main Navigation Tab Order

Configure Dashboard Views

Customize the objects that display on the Dashboard Views.

Customize DBA Dashboard

Send Notification to All Users

Add a warning message to notify all users about product upgrades.

Send notification

To customize Dashboard views:

1. Click the **Customize DBA Dashboard** link and a dialog displays.

Tips

The Idera Dashboard hosts products that register with the dashboard. Typically this is handled at the time the product is installed or uninstalled. The Manage Products option lets you view and manage the list of registered products.

This screen lets you manage the credentials that the Idera Dashboard uses to connect to the registered products as well as manage the list of registered products.
