

# Managing products in the IDERA Dashboard

 SQL Safe is **ONLY** compatible with IDERA Dashboard version 4.6 and with limited support.

The **IDERA Dashboard** hosts IDERA products that are registered with the dashboard. The **Products** section of the **Administration** tab allows users to register, view, and manage products.

## Register a product

To register a product, follow these steps:

1. Click **Register a Product** on the top section of the Manage Products tab.
2. In the **Add a Product to IDERA Dashboard** window, fill in the required fields:
  - **Product:** select or enter *SQLSafeRestService*
  - **Display name:** specify a unique name.
  - **Host:** specify the host on which the SQL Safe Rest Service has been installed.
  - **Port:** specify the port on which the SQL Safe Rest Service is listening. The default port is 9998.
  - **Username:** specify the user with Dashboard Administrator privileges.
  - **Password:** enter the password for the user.
3. Click the **Register** button.

## Editing a product

To edit a product, follow these steps:

1. Click the product from the list of available products.
2. In the **Edit Product** window, you can change the location and the connection credentials.
3. Click **Save** to keep changes.
4. To migrate the product to a different IDERA Dashboard, click **Migrate product**. In the new window, specify the host computer, port, and administrator credentials to access the new location.

## Removing a product

To remove a product, follow these steps:

1. Click the product from the list of available products.
2. Select **Delete** on the **Edit Product** window.
3. A window will appear asking for confirmation for the removal of the product. Click **Yes** to continue with the removal of the product. Click **No** to cancel.
