

Port requirements

IDERA SQL Safe Ports

The SQL Safe Backup services use specific ports to communicate to each other as well as other SQL Safe Backup components. Before installing SQL Safe Backup, ensure the following ports are available:

Service	Port for trusted domains	Port for non-trusted domains
SQL Safe Backup Service	5164	5165
SQL Safe Collection Service	9299	9299
SQL Safe Management Service	5162	5163
SQL Safe Rest Service	9998	9998

SQL Safe Backup automatically detects whether its components have been installed in trusted or non-trusted domains.

IDERA Dashboard Ports

The IDERA Dashboard services use specific ports for communication. Before installing the IDERA Dashboard, ensure the following ports are available:

Service	Port
IDERA Dashboard Core Service	9292
IDERA Dashboard Web Application Service (HTTP)	9290
IDERA Dashboard Web Application Service (HTTPS)	9291
IDERA Dashboard Web Application Service (Monitor)	9094

SQL Safe is **ONLY** compatible with IDERA Dashboard version 4.6 and with limited support.
