Hardware requirements

SQL Safe Backup requires the following hardware.

| Hardware Type | Requirement | Recommendation |
|-----------------------|---------------------------------|--|
| CPU | 1 GHz | 2 GHz |
| Memory | 512 MB | 1 GB |
| Hard Drive Space | 80 MB (installation files only) | 1 GB (temporary disk space for backup and restore operations as they write data to and from files) |
| Monitor Resolution | 1024 by 768 pixels | 1280x1024 pixels |
