

Domain Services Permissions Exceptions

Target Service

Corresponds to warning on UI / Exception in Logs:	<ul style="list-style-type: none"> Error Getting Target Service. [Logged]
Type of exception:	
Cause:	If there is any exception encountered while doing the WMI query to get services from Target.
Resolution:	<p>Verify that the WMI service on the target machine is running successfully.</p>  <p>The screenshot shows the Windows Services console with the 'Services (Local)' window open. The 'Windows Management Instrumentation' service is highlighted in the list. The 'Name' column shows 'Windows Management Instrumentation', the 'Description' column shows 'Provides a common interface and object model to access management information about operating system, devices, applications and services. If this service is stopped, most Windows based software will not function properly. If this service is disabled, any services that explicitly depend on it will fail to start.', the 'Status' column shows 'Running', the 'Startup Type' column shows 'Automatic', and the 'Log On As' column shows 'Local System'.</p>
New Error Message:	Error/Exception occurred while getting target services using WMI. Verify that the WMI service is running on [target server].

Local connection

Corresponds to warning on UI / Exception in Logs:	<ul style="list-style-type: none"> Local connection attempt failed.[Logged]
Type of exception:	
Cause:	If management scope object creation or call to open connection fails.
Resolution:	Verify that the WMI service on the target machine is running successfully.
New Error Message:	WMI service failed to connect to the target server. Verify that the WMI service is running on [target server].

SQL Services

Corresponds to warning on UI / Exception in Logs:	<ul style="list-style-type: none"> Failed to load properties for some SQL Services on target SQL Server [UI]
---	---

Type of exception:	
Cause:	If any of the above two exceptions encountered or if there is any exception encountered while saving services data in Secure repository.
Resolution:	Change the UI message to depict the actual issue rather than one generic message.
New Error Message:
