

View user security on this instance

To view the users for a specific SQL Server instance in IDERA SQL Secure, go to the **Security Summary** view, select the respective instance from the **Servers in Policy** tree, and then go to the **Users** tab.

The **Users** tab allows you to view all the user accounts associated with the selected SQL Server instance.

You can right-click on a particular user account row and select **Show Permissions** to explore user permissions and see more detailed security information about the selected account.

You can filter user information according to the login type along the left side of the Users list, after you select a login category (Windows Users and Groups, SQL Logins, and All Logins), you can see the following information:

Login Name

The full login name of the associated account

Type

Type of login (SQL Login, Windows User, Windows Group, and Certificate Mapped Login)

Server Access

Whether or not the user has access on the SQL Server instance

Server Deny

Whether or not the user has denied access to the SQL Server instance

Disabled

Whether or not the user account is disabled

Expiration Checked

Whether or not the password expiration is checked

Policy Checked

Whether or not the associated policy is checked for this user account

Password Health

Whether or not the password associated with the account is considered weak. You can configure how [SQL Secure detects weak passwords](#). Possible password health states include:

Password health result	What it means
Blank	The password for this login is either blank or null, which means no password is required for authentication or successful connection to databases hosted by your audited SQL Server instances.
Matches login name	The password for this login matches the name of the login.
N/A	The password for this login was not checked, most likely because either the login is a Windows user account or weak password detection is disabled.
OK	This login most likely has a strong password because the password does not match any of the words and phrases in the Default Weak Passwords list or the additional and custom passwords you specified.
Weak	The password for this login matches one or more of the words and phrases in the Default Weak Passwords list or the additional and custom passwords you specified.

Default Language

The language that is set as the default for the user account

Default Database

The database that this login connects to and queries when no other database is specified

You can choose which columns to display on this list, group by columns, save the information, and print it, by going to the menu grid located on the top right section.
