

Bulk Email Notifications

The **Email Notifications** option lets you configure the email notifications for the number of servers you select.

On the **SQL Secure Servers** section you will be able to see a list of all your monitored servers, each server with a check box. Select the number of servers from which you want to receive emails when snapshot collection process finishes.

Edit Email Notifications

You will have the option to **Edit Email notifications** at the top of the window.

A **Edit Email Notifications Settings** wizard will display after selecting the option.

Edit Email Notifications Settings ✕

 Edit Email Notifications for snapshot status and findings. Any edits made in this dialog will not be applied to the servers until a server is selected from the list and "Apply Email Notifications" is clicked.

☒ Send Email Notification after Data Collection _____

☒ Always
☐ On Warning and Error
☐ Only On Error

☒ Send Email Notification for Security Findings _____

☒ Any Risk
☐ On High and Medium Risks
☐ Only on High Risks

Email Recipient:

(specify multiple email recipients by separating each address with a semicolon)

OK Cancel Help

You can determine the way email notifications are sent after a snapshot is collected. You can set the following notifications:

- Email notifications sent after a snapshot is collected successfully, or only if there are warnings or errors. (Always, On Warning and Error, or Only On Error)
- Email notifications sent depending on the level of the security risks discovered. (Any Risk, On High and Medium Risks, or Only on High Risks)

You can configure the **Email Recipient** space with one or more emails separating each email address with a semicolon.

Apply Email Notifications

After selecting the servers from which you want to receive emails, the **Apply Email Notifications** option will be available at the top of the window.

Click on the option and a confirmation notification will display, letting you know the number of servers the email notifications were configured for.

 You cannot select decommissioned servers as part of bulk email notifications.
