Viewing all instances

The **Instances** tab provides a broad visibility of your environment. SQL Elements displays in this section all available instances in the following views:

- **MANAGED** - Instances you have registered with SQL Elements.
- **DISCOVERED** - Instances discovered by SQL Elements and not registered yet.
- **IGNORED** - Instances you have chosen not to manage with SQL Elements.
- **SQL LICENSING** - Helpful information about your instances to help you determine your SQL Server licensing requirements.
