

# Manage tags

The Manage tags window allows you to [Add](#), [Edit](#), and [Remove Tags](#). For more information on tags and their functionality, see [Working with tags](#).

This window is available only to SQL Diagnostic Manager Administrators.

The Manage Tags window shows a list of all existing tags. From here, you can:

- Modify the list of servers, custom counters, and permissions associated with a tag.
- [Create a new tag](#).
- [Edit an existing tag](#).
- Remove a tag (Removing a tag does not delete items associated with that tag).

## Access the Manage Tags window

To access the Manage Tags window:

1. Select **File**.
2. Select **Manage Tags**.

[SQL Diagnostics Manager for SQL Server](#) performance monitoring, alerting, and diagnostics for SQL Server.
