

Explore Activity View

The SQL Compliance Manager Explore Activity view is the windows console main display screen which allows you to get an overview of the status of your SQL Server instances and hosted databases all in a consolidated view, while providing the means to drill into individual SQL Server or database configuration settings for more details. Select the Audited SQL Servers option from the expansion tree to display an overview of your registered servers, or select a registered instance to view the captured events and to set your desired configurations. In addition, you can also select a database to view detailed information or to set your configuration settings for that specific database.

The screenshot displays the IDERA SQL Compliance Manager interface. The left sidebar shows the 'Explore Activity' view with a tree structure under 'Audited SQL Servers'. The main content area is divided into several sections:

- Summary:** Includes icons for Register SQL Server, Monitor, Configure Access, Self-Audit, and Configure Alerting. It also shows a 'Span' dropdown set to '1 Day' with options for 7 Days and 30 Days.
- System Status:** Displays a green checkmark and the text 'All servers are OK'. Below this, a table shows:

Registered SQL Servers	1
Audited SQL Servers	1
Audited Databases	12
Processed Events	0
- Enterprise Activity Report Card:**
 - Event Alerts:** A list of activity types including Logins, Logouts, Failed Logins, Security, DDL, Privileged User, and Overall Activity.
 - Login Activity Per Server:** A table showing activity for the server WIN-N23BE3A8DSG.

Server	Max	Threshold
WIN-N23BE3A8DSG	0/day	None
- Recent Alerts:** A table showing alert levels:

Severe	0
High	0
Medium	0
Low	0

The bottom of the window features the 'SQL Compliance Manager' logo and a status bar.
