

General Preferences

This section allows you to configure your general preferences for your SQL Safe Web Console, Management Service and Repository Settings, Backup Preferences, Agent Deployment, Policy Data location, Amazon Settings, and Azure Settings.

To access this section, go to the **Administration** tab, and click **General Preferences**.

This option is only available to Administrators.

On the **Configure General Preferences**, you can find these tabs :

- [Basic](#)
- [Repository and Management Service](#)
- [Backup](#)
- [Agent Deployment](#)
- [Policy Data](#)
- [Amazon Settings](#)
- [Azure Settings](#)
