Managing users in the IDERA Dashboard

The **Users** section of the **Administration** view allows users to grant access to other team members or groups and manage their roles. Users with administrative privileges are divided in:

- **Dashboard administrators** with capability to manage access on Dashboard functions as well as individual products functions.
- **Product administrators** with capability to grant access to individual products for which they have administrative rights.

To add new users, edit their details (name, subscription, or email address), or remove them, select **Manage Users** in the Administration view.

Adding a user in the IDERA Dashboard

In the **IDERA Dashboard**, access is granted to Windows users or groups. To add users follow these steps:

- 1. Click the Add User / Group option and the Add User/Group dialog displays.
- 2. Type the name of the user you want to grant access to. You should enter a Windows user name in the following format: <domain\user>.
- 3. Type the name with which the user will be displayed.
- 4. Select **User** or **Group** in the Account Details field.
- 5. Check the **Do not timeout the browser session for this account** check box to stay logged in.
- 6. In the **Product** field, you can select to add users to the **IDERA Dashboard** or to a specific product like SQL Safe.
- 7. If you select the first option (IDERA Dashboard), in the **Role** field you can assign the **Dash board Administrator** or **Dashboard Guest** roles.
- 8. If you select the second option (SQL Safe or respective product), in the **Role** field you can assign the Administrator, User, or Guest roles.
- 9. Click Add More to assign more user roles to the different available products.
- 10. Click SAVE.

Editing a user in the IDERA Dashboard

This option allows you to edit the account name, display name, disable his/her account, and add new permissions. To edit a user or group follow these steps:

- 1. Click the user you want to edit to access its details.
- 2. Change the necessary settings and/or click **Add New Permission** to grant the user access to the IDERA Dashboard or to assign different roles to other products. You can also remove roles by clicking the X icon next to the role.
- 3. Click **SAVE**.

You cannot edit the logged in user credentials.

Removing a user from the IDERA Dashboard

This option allows you to remove a user from access to the IDERA Dashboard. To delete a user or group follow these steps:

- 1. Click the user you want to remove from the list of available users.
- 2. Click **Delete** in the user details window.
- 3. A warning that requires a confirmation whether you want to delete the selected user or group displays.
