

View Computer Details

IDERA SQL Inventory Manager provides you with the computer details of your SQL Server instance host machines.

To access this information, go to the **Instance details** view, and review the information in the Server Summary section. Click **View Server Details** or click the name of the **Host Server** and SQL Inventory Manager opens a window with the respective computer details. Also note the custom inventory fields included above the **View Server Details** button. Click the pencil icon to change this value. For more information about this feature, see [How to manage custom inventory fields](#).

The screenshot displays the IDERA SQL Inventory Manager (SIM181) interface. The top navigation bar includes 'DASHBOARD', 'OVERVIEW', 'EXPLORER', 'INSTANCES', and 'ADMINISTRATION'. The 'INSTANCES' tab is active, showing the instance 'AUT-2005-003\SQL2005'. The 'INSTANCE DETAILS' section highlights 'YOU HAVE 13 HEALTH CHECK RECOMMENDATIONS' with three items: '6 databases do not have a backup.', '6 databases consistency has never been checked.', and 'Instance AUT-2005-003\SQL2005 configured to allow xp_cmdshell use.' Below this, the 'APPLICATIONS' table lists various services like 'Microsoft SQL Server Management Studio' and 'SQLAgent - Alert Engine'. The 'TOP DATABASES BY SIZE (MB)' and 'TOP DATABASES BY ACTIVITY (TRANSACTIONS/SEC)' bar charts are also visible. On the right, the 'INSTANCE SUMMARY' and 'SERVER SUMMARY' sections provide detailed information about the SQL Server instance, including version, memory, and configuration settings. The 'View Server Details' button is prominently displayed at the bottom of the server summary section.

On this window you can get the following information:

- **Computer information**
 - Computer name
 - Full computer name
 - Domain
- **Windows information**
 - Windows version
- **System information**
 - Manufacturer
 - Model
 - Computer Type
 - Physical and Logical CPUs
 - Physical Memory
 - Number of Network Interface Cards (NICs)
 - CPU Name
 - CPU Speed
 - Whether the computer is clustered
- **Drive information** - All drives, type, their capacity, and respective free space.
- **Hosted instances** - All instances hosted by this computer, if they are clustered, and their active and passive nodes.

Computer Details

Computer Information

Computer name: AUT-2005-003

Full computer name: AUT-2005-003

Domain: simpsons.qa

System Information:

Manufacturer: VMware, Inc.

Model: VMware Virtual Platform

Computer Type: Virtual

Physical CPUs: 2

Logical CPUs: 2

Physical Memory: 4.0 GB

NICs: 2

CPU Name: Intel(R) Xeon(R) CPU E5645 @ 2.40GHz

CPU Speed: 2394 MHz

Clustered: No

Windows Information

Microsoft Windows Server 2008 R2 Enterprise

Build: 6.1.7600

Drive Information

Drive	Type	Capacity	Free Space
C:	Fixed	39.9 GB	17.9 GB

Hosted Instances

Instance	Clustered	Active Node	Passive Node
AUT-2005-003\SQL2005	No	AUT-2005-003
