

SQL Inventory Manager and Isass.exe process

Essentially due to the very high number of WMI calls IDERA SQL Inventory Manager makes from the service, the Isass.exe process can grow until it cannot grow any more. The problem only occurs on a Windows 2008 server that has not been fully patched. For more information go to <http://support.microsoft.com/kb/971265/EN-US>.

SQL Inventory Manager lets you discover and visualize your SQL Server environment. [Learn more](#) > >
