[Go to Version 3.2.x](#)

[Go to Version 3.1.x](#)

Take full control of SQL Server permissions

- Identify existing vulnerabilities in your SQL Server environment
- Harden security policies across SQL Servers
- Rank security levels with the security report card
- Analyze and report on user permissions across SQL Server objects
- Comply with audits using customizable templates for PCI, HIPAA and more

IDERA [SQL Secure](#) tells you who has access to what on your SQL Server databases. [Learn more >>](#)
