

Increase memory available to SQL Inventory Manager

To increase the memory available to SQL Inventory Manager, you can use the following options:

Approach 1

1. Access the `server.conf` file, the file is located in your installation path: `C:\Program Files\Idera\SQL\Inventory Manager\WebApplication\idera-main\conf\server.conf`
2. Edit `server.conf` as follows:
 - Change `compute.maxmemory=false` to `true`
 - Change `maxmemory` to new value in MB. For example: `maxmemory=1024` to `1536` or `2048`
3. Save `server.conf` file

Approach 2

Follow these steps:

1. Go to your Windows Services.
2. Right click the **Idera web application service** and select **Properties**.
3. On the **General** tab, click **Stop** to stop the service.
4. Add `-Xms256m -Xmx1536m` in **Start parameters**.
5. Restart the services by clicking **Start**.
6. Click **OK**.
