

Managing products in the Idera Dashboard

The Idera Dashboard hosts Idera products that register with the dashboard. The Products widget of the Administration view, allows users to view and manage registered products.

To edit or remove registered products, select **Manage Products** in the Administration view, and the Products window displays:

The screenshot shows the Idera Dashboard Administration view. On the left, the 'ADMINISTRATION' sidebar has 'Manage Products' highlighted. A 'Tips' box explains that the dashboard hosts products that register with it and that the 'Manage Products' option allows users to view and manage the list of registered products. The main window displays a 'Products' table with the following data:

Product	Version	Registered	Location	Credentials	
IderaDashboard	2.1.1.522	09/04/2015 03:49 PM	AUT-SQLALL-A01	Admin	
SQLInventoryManager(sql...	2.0.0.585	09/04/2015 04:00 PM	http://AUT-SQLALL-A01:92...	simpsons\administrator	

Editing a product in the Idera Dashboard

Clicking the Edit icon for an Idera product allows you to edit the associated instance name, install location, user name and password for the account used to connect to the product, and the short or common name of the product. To edit a product, follow these steps:

1. In the list of products, click the **Edit** icon for the product you want to edit. Idera Dashboard displays the edit Product Information dialog.

The 'Edit Product Information' dialog box contains the following fields and values:

- Product Name: SQLInventoryManager(sqlinventorymanager)
- Instance Name: sqlinventorymanager
- Version: 2.0.0.585
- Registered: 09/04/2015 04:00 PM
- Location: http://AUT-SQLALL-A01:9275/SQLInventoryManager/v1
- Connection User: simpsons\administrator
- Connection Password: ●●●●●●●●
- Short Name: SQLInventoryManager

Buttons: SAVE, CANCEL

2. Make the necessary changes.
3. Click **SAVE**.

Removing a product from the Idera Dashboard

Clicking the Delete icon for an Idera product allows you to unregister that product. Use the following steps to delete a product.

1. In the list of products, click the **Delete** icon for the product that you want to unregister. Idera Dashboard displays a warning message that requires a confirmation whether you want to unregister that selection.

Tips

The Idera Dashboard hosts products that register with the dashboard. Typically this is handled at the time the product is installed or uninstalled. The Manage Products option lets you view and manage the list of registered products.

This screen lets you manage the credentials that the Idera Dashboard uses to connect to the registered products as well as manage the list of registered products.

Product	Version	Registered	Location	Credentials	
IderaDashboard	2.1.1.522	09/04/2015 03:49 PM	AUT-SQLALL-A01	Admin	
SQLInventoryManager(sql...)	2.0.0.585	09/04/2015 04:00 PM	http://AUT-SQLALL-A01.92...	simpsons\administrator	

CLOSE

2. Click **Yes**. Idera Dashboard unregisters the product and users can no longer access that product. **If you did not mean to delete the selected account**, click **No**.
