

## Edit Status Alert wizard - Status Alert Type tab

The Status Alert Type tab of the Edit Status Alert wizard allows you to change the type of IDERA SQL Compliance Manager status you want to alert on.

**Edit Status Alert Rule**

**Status Alert Type**  
Select the status alert type that you want to monitor.

Rule Type: Agent heartbeat was not received

Description  
The Collection Server has not received a heartbeat from one of the deployed SQLcompliance Agents.

Edit rule details (click on an underlined value to edit)

Generate a Medium alert when the Collection Server status indicates no heartbeat has been received from the SQLcompliance Agent

Previous Next Cancel

## Available actions

### Select type of SQL Compliance Manager status that triggers this alert

Allows you to select the [product component](#) status that should trigger this alert. When the Collection Server receives a status that matches the specified type, the alert rule is run to see whether the status matches the other alert rule criteria.

### Edit rule details

Allows you to change your specified alert rule criteria at any time as you create your new alert rule. As you specify criteria using the Edit Status Alert Rule wizard, the rule details grows to include these additional settings. To edit previously set criteria, click the corresponding setting.
