Custom reports

The Custom Reports view allows you to create, import or export reports on any counter collected by SQL Diagnostic Manager and on any of your custom counters . You can create custom reports to view graphs of the counters followed by a grid containing all of the counters graphed over the entered time frame.

> # Import and export custom reports
>
> You can also import or share custom reports in the IDERA community site.

Access Custom Reports

Once in the Reports view, click **Custom** in the Navigation pane.

Deploy reports to Microsoft Reporting Server

You can use the SQLDM Reports Deployment wizard to deploy specified reports to your Microsoft Reporting Server.

Edit or Delete an existing report

You can edit or delete an existing custom report by selecting the report name from the list displayed in the Reports pane, and then click **Edit** or **Delete**. To edit your report, use the Custom Report wizard.

Import or Export an existing report

You can import or export an existing custom report to the IDERA community site.
